ORLANDA ENGINEERING

PROJECT MANAGER - Engineering / Façade Projects

ABOUT US

Orlanda Engineering is a fast-growing international engineering company specializing in façade systems, building envelopes, and complex engineering projects across Israel and Europe. We are looking for an experienced Project Manager to coordinate façade and engineering projects from the Shop Drawing phase through installation and quality control.

ABOUT YOUR ROLE

This role requires strong organizational and communication skills, technical understanding of construction and façade systems, and the ability to manage multiple stakeholders, timelines, and project processes to ensure successful project delivery in a dynamic and rapidly developing environment.

WHAT YOU'LL DO

- Coordinate communication and collaboration between clients, architects, engineers, subcontractors, and internal teams
- Manage detailed project schedules using Gantt charts; monitor timelines, identify risks, and implement mitigation strategies
- Support technical coordination during both design and installation phases
- Oversee procurement processes, coordinate deliveries, and plan installation sequencing
- Ensure installation quality complies with project specifications and approved drawings

WHAT WE'RE LOOKING FOR

- Minimum 5 years of project management experience in construction, façade, or engineering projects
- Degree in Civil Engineering, Architecture, or a related technical field
- Strong knowledge of Shop Drawings and construction workflows
- Proficiency in MS Project or similar project management software
- Fluent English; Russian language skills are an advantage

KEY SKILLS & COMPETENCIES

- Project Coordination - managing multiple stakeholders and communication
- Scheduling & Risk Management - creating and maintaining Gantt charts; risk mitigation
- Technical Knowledge - understanding Shop Drawings and installation processes
- Procurement & Logistics - coordinating deliveries and installation sequencing
- Quality Control - ensuring compliance with drawings and standards

DETAILS

Work format: Hybrid (office, remote work, and on-site meetings)
Location: Israel
